File No. Medical II/79(N)

Gen. 194

Local Department.

A revised draft notifcation is sent herewith.

2. It is not necessary to embody in the notification at this stage the intention of the Bombay Medical Council as expressed in its letter at page 1 of the correspondence section to recognise till 1950 only the qualifications of licentiate of the East Pubjabi State Medical Faculty. The reasons for this proposal are not disclosed. Probably the new Medical body does not want to continue the courses for the licentiate diploma after 1950. Section 20 of the Bombay Medical Act, 1912, only empowers Government to direct that the possession of any qualification entered in the Schedule shall not entitle any person to registration under the Act if it appears to it that the course of study and examination prescribed by any college or body are not such as to secure the possession by persons obtaining such qualifications of the requisite knowledge and skill for efficient practice of their profession. The amendment would suggest as if the Provincial Government is convinced beforehand that the course of study and the examination standard for the licentiate diploma is going to be the same till 1950. If the East Pubjab State Medical Faculty has no intention of countinuing the courses for the licentiate diploma after 1950 the relevant entry can be amended in 1950. The Health and Local Government Department may, however, ascertain from the Bombay Medical Council the exact intention which led them to suggest the amendment in question.
